LAST OF 15 BODIES FOUND IN SUPERBA'S EVANS STATION MINE

Corpse Believed to be That of Michael Smith is Recovered.

INQUEST MAY FOLLOW SOON

Coroner Bell's Inquiry to Include Testimony of State Inspectors; Date to be Fixed in Few Days; Search Work Costs Company Great Sum.

Ter weeks after the Superba Coal Company's Pulcrat mine at Evans Station was flooded, the last of the drowned miners, believed to be Michael Smith, was recovered from the mine this morning by rescuers, after persistent search for the entombed men at great cost to the company.

The body, in an advanced stage of decomposition, was moved to the temporary morgue at the mouth of the mine, where it was prepared for burial, immediately upon the discovery of the corpse. Undertaker J. R. Foltz was notified.

The coroner's inquest probably will be held the latter part of this week, Coroner J. Harry Bell and Undertaker Foltz conferred last night, regarding the date of the inquest and decided to wait until the last body had been removed.

The State Department of Mines, through the district inspector, I. G. Robey of Uniontown, likely will be represented at the inquest.

The recovery of the body this morning makes the total death list 15, instead of 14 as originally believed by the mine management. Thousands of gallons of water were pumped from the mine in record time.

Smith's body was found nearer the mouth of the mine than the others, recorded last week. It is believed he was attempting to find his way out of the mine and was swept into an out-of-way place by the onrush of water.

EVERY WORD TRUE; READ IT

Weird Story Told by Three B. & O. Men, All Sober.

This is said to be a true story, vouched for by three Baltimore & Ohio employes, all of whom are sober, hardworking men.

They saw the man—the man who came upon them suddenly from around or beneath the cars of their freight train on a siding at Sand Patch—the Man Without a Head who stood still before them and held out a hand in greeting. But there was no greeting on their part; they vamoosed—fled to the woods and didn't come back.

This is their story: Brakeman Louis Beck, Flagman Ernest Gross and Car Inspector Gause had pulled in on a siding at Sand Patch at 11.30 Sunday night to let No. 97 pass. They then went along their train on a tour of inspection and got about half way when suddenly, without a sound, there stepped from between two cars the Man! He stood before them—no head—his trunk ended at the neck—a ghastly sight. There was a pause for an instant and the three railroaders fled.

The last they saw of the man without a head, he was standing with hand extended, a keen look of disappointment on the place where his face ought to have been but wasn't. Beck was so overcome he laid off yesterday at Rockwood.

B. & O. AND L. C. V. CLASH.

Railroads Differ as to Appointment of Joint Agent.

Charles F. Hood, of the Indian Creek Valley Railroad Company, this morning denied, emphatically, the official announcement of the Baltimore & Ohio Railroad Company of the appointment of W. S. Rafferty as joint agent at Indian Creek. Hood declared the Indian Creek Company would retain Agent W. Fred Algeier.

Both companies are using the station at Indian Creek and negotiations have been on for months for the appointment of a joint agent. The two companies, however, could not agree upon the man and each has had its own representative.

CONNELLSVILLE FIGURES IN COURT CASES AT UNIONTOWN

Licenses and Board Bills Take Up Time of Judge Umbel; Keystone Opinion Rescinded.

The Trans-Allegheny hotel license was transferred, at Uniontown this morning, from Samuel Goodman to James O'Hara, recent purchaser. Judge Umbel declared the Trans-Allegheny, with others, had been unfavorably reported to him and that unless improvements were made, the license would be made a matter of new application at the next hearing of the license court.

Logan Rush, new proprietor of the Smith House, was granted permission to close the hotel 30 days for improvements, and continue operation of the bar.

Judge Umbel this morning sentenced eight prisoners. P. Castle, alleged to have owed a board bill of $56 to James A. Friel of Connellsville, was sentenced to three months in the workhouse. "Kit" Fullerton, charged with stealing a keg of beer, was sentenced to 30 days in jail. Clifford J. Swaney was divorced from Anna Maude Swaney; adultery was charged.

The court rescinded an opinion in the case of the Keystone Tube Works against the Connellsville State Line Railroad Company, which was carried to the Supreme Court. The higher court's opinion differed from that of the Fayette County Court.

FREE SCHOOL GAS WAITS UPON GAMES IN BASEBALL SERIES

Board Advised Company Will Consider Matter Upon Attorney's Return.

10 PER CENT. ADDED BACK TAX

Collector Norton Ordered to Enforce Law Increasing Delinquent Penalty; Pittsburg & Connellsville Railroad Denied Exoneration of $42.

Connellsville School Board, at the regular monthly meeting in the High School building yesterday evening, postponed advertising bids for coal pending further action in the controversy with the Fayette County Gas Company, authorized the tax collector to enforce that part of the school code imposing an additional 10 per cent on delinquent school taxes, fixed the dates for the Christmas holidays, heard reports from various committees and adjourned after a 2-hour session.

Superintendent Ashe asked for instructions from the board as to whether or not the truant officer would have jurisdiction over parochial schools. Opinions from State department officials and the Connellsville board's solicitor, were that the truant officer's duties extended to such schools. The matter was held until the next meeting, when Truant Officer Stillwagon will be present.

President Younkin reported the gas company, probably would submit a proposition in relation to free gas in the schools at the close of the World's Championship baseball series, when the company's attorney will return. In the meantime coal as needed will be purchased by the board without contract.

The board contends the gas company is bound by its franchise to furnish free gas to all school buildings. The company contends free gas is to be furnished only to buildings erected at the time the franchise was granted.

The Tax Collector, H. C. Norton, was instructed to enforce the following act: "Every school district in this Commonwealth may, in addition to the present manner and remedies provided by law for the collection of school taxes, maintain an action in assumpsit for the collection of any unpaid school taxes, before any magistrate, justice of the peace, or alderman, or any court of record and to any judgment obtained for such taxes, there shall be added a penalty of 10 per centum, together with costs of suit, upon which judgment an execution may be issued without any stay of execution, and no defendant in any such judgment shall have the right to any exemption of property levied upon to collect the same." This provides an attorney's fee for the collector in delinquent taxes.

Upon recommendation of Superintendent Stanley P. Ashe, of the local schools, the annual Christmas holidays will begin Wednesday, December 18, instead of the Friday before Christmas as heretofore, and close Thursday, January 2, thus giving the teachers an opportunity to attend the County Institute.

Pupils whose homes are outside the school district, or whose parents or guardians live outside the district, even though the scholars may reside, temporarily, in the district, will be charged tuition, according to instructions of the board when the question was raised by Ashe. The superintendent reported that pupils whose homes were outside the district who were with relatives here had declared members of the board said they were exempt from tuition fees.

The Pittsburg & Connellsville Railroad, now merged with the Baltimore & Ohio, was refused exoneration from payment of school taxes totaling about $42 on a small piece of property in this city. No action was taken upon the request of C. C. Bittner, Ninth street, West Side, for exoneration. James Rush was exonerated from payment of 1911 school taxes. He is paralyzed on one side, following injuries sustained four years ago. He is the father of nine children, the youngest of whom is seven months old.

Some of the members of the "Visiting Committee" reported a part of the calls assigned them by the President.

The treasurer's report showed a balance in bank, October 1, of $7,372.28. Of this amount, the sinking fund balance is $4,229.30 and the general fund balance, $3,142.98. The tax collector has turned over $32,000 the past month. This was not included in the treasurer's report, to October 1.

Purchase of ventilators for windows in the Fourth Ward school was referred to the Property Committee. The committee reported the walk in front of the South Side school late and the foundation ready for the front wall.

The salary of Janitor Tarr, of the High School, was increased to $70 a month, with instructions that he employ an assistant.

Those at the meeting were Directors Younkin, Smith, Shaw, Davidson, Baisley, Hayes and Bishop and Superintendent Ashe.

His two brothers and a sister in Chicago, Joseph Grina, aged 35 years, single, of Adelaide, lay dead today in Stader's undertaking rooms while search is made for his relatives.

A story from Kovena, Russia, to the Connellsville coke region, was brought to light through Grina's death. Desire to escape from Russian tyranny and find American freedom broke up the Grina family after the death of the aged parents. A brother succeeded in making way to the United States and was followed, a few months later, by a second. Joseph came about three years ago. A sister parted from another, leaving the latter in the Czar's country.

Joseph Grina found work at Adelaide as a cokedrawer. Dominick and Anton were employed at times at Adelaide and Leisenring No. 3. Inducements from Chicago finally drew Anton and Dominick, and they took with them their sister Nellie.

ROOSEVELT BALKS BULLET OF NEAR-ASSASSIN AT HOTEL

Presidential Candidate's Doctors Report Operation Not Necessary.

WOULD-BE SLAYER IN JAIL

Attempt Upon Life of Progressive Nominee Startles Country; Bull Moose Leader Persists in Delivering Speech, but Must Quit Campaign.

United Press Telegram.

MILWAUKEE, Wis., Oct. 15.—John Schrank, who attempted the assassination of Colonel Theodore Roosevelt here last night, showed no emotion, shortly before 10 A. M., today, when a warrant, charging him with assault with "intent to kill and murder one Theodore Roosevelt," was read to him in his cell at the county jail. He will be arraigned in court today, according to District Attorney Zabel.

CHICAGO, Ill., Oct. 15.—The following statement was issued at the Mercy hospital at 10.30 A. M., Central time, as to the condition of Colonel Roosevelt:

Bullet wound at chest wall, without striking any vital organ in transit. Wound not probed. Point of entry is one inch to right and one inch below the level of the right nipple. The bullet ranged upward and inward for a distance of four inches into the chest wall. No evidence that the bullet penetrated the lungs. Pulse is 90, temperature, 99.2, respiration, 20, leucocyte count 8,200 at 10.00 A. M. No operation to remove the bullet is indicated at the present time. Condition is hopeful, but the wound is so important as to demand absolute rest for a number of days.

JOHN B. MURPHY,
ARTHUR D. BEVAN,
S. CURRY L. TERRILL,
R. G. SAYLE,
Attending Physicians.

Colonel Roosevelt will do no more campaigning this year. Positive announcement that the injury to the Progressive nominee was serious enough to keep him off the road the remainder of the campaign, was made today at Mercy hospital, where he was to be operated upon, and a bullet fired by a fanatic in Milwaukee last night, removed.

As soon as he is able to leave this city, Colonel Roosevelt will be taken to Oyster Bay. He will remain at home there until his wound is completely mended, and will take no active part in the campaign. The fact that his injury is such that it would force him into retirement for some time was pointed out to the Colonel by the surgeons at the Hospital. They were emphatic in telling him that in order to insure his complete recovery he would have to remain quit several weeks, and the Colonel reluctantly agreed, insisting at the same time, he felt perfectly "fit" and could make a public speech today.

The announcement that Colonel Roosevelt would do no more campaigning was followed by a revised announcement that if he recovered sufficiently, he might address a mass meeting at Madison Square Garden in New York on October 20.

MILWAUKEE, Wis., Oct. 15.—An attempt was made to assassinate Roosevelt last night as he started from the Hotel Gilpatrick to the Auditorium to deliver an address.

A man, who later gave his name as John Schrank of 370 East Tenth street, New York City, fired at the colonel as the latter stepped into his automobile. The man took deliberate aim and sent a bullet crashing into the ex-president's right side just below the breast.

The assailant was seized by Elbert H. Martin, the colonel's stenographer, and Capt. Alfred O. Gerard of Milwaukee, a former Rough Rider. He was overpowered before he could fire a second time.

Col. Roosevelt insisted that he was not hurt and went on to the Auditorium, where, despite the entreaties of Col. Cecil Lyon of Texas who has been one of his party, and several physicians, he went on with his scheduled address, although the manuscript he took from his pocket was stained with blood.

The would-be assassin is 5 feet 6 inches in height, weighs 170 pounds, is of light complexion, bald and fairly well dressed. He confessed to the police he fired the shot and made the remark: "Any man looking for a third term ought to be shot." The prisoner gave every appearance of being crazy. He mumbled to himself and looked wild-eyed. Schrank informed the police he had followed Roosevelt around the country for the last week to kill him.

Schrank in his confession told of a carefully laid plot, often frustrated, but finally successful. He said: "I formerly ran a saloon at 10 East Tenth street, between Avenues B and C, New York City. I was born in Erding, Bavaria, two hours out of Munich, the capital. I am 36 years old.

"I looked upon Roosevelt's plan to start a third party as a danger to the country, my country; my knowledge of history gained through much reading convinced me that Roosevelt was engaged in a dangerous undertaking. I was convinced that if he was defeated at the fall election he would again cry 'thief,' and that his action would plunge the country into a bloody civil war."

OLD SORES, PILES, BURNS AND SCALDS HEAL VERY QUICKLY

Graham & Co., Connellsville; S. A. Lowe & Co., Scottdale, sell an ointment called San Cura that surely does do anything it is advertised to do or money back.

Thomas F. McCauley, Coopertown, Pa., cut his finger—blood poison set in—arm swelled terribly—friends despaired—said arm must come off. San Cura Ointment drew out water and dark pus—agony ceased—arm and hand soon as good as ever.

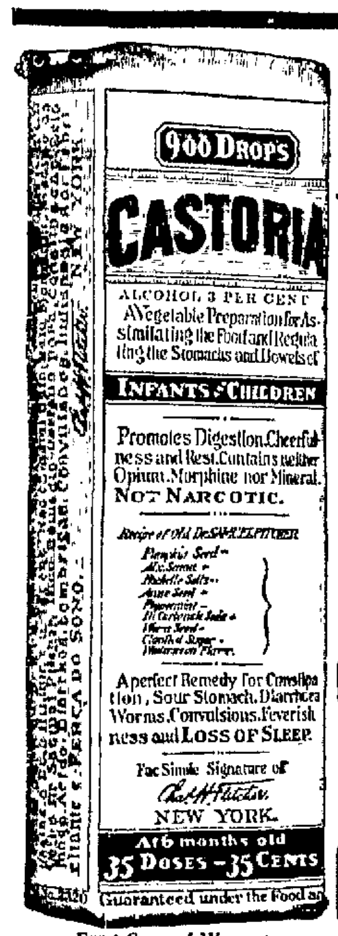

It quickly draws out all poisons from sores, cuts, burns, scalds and bruises and heals without leaving a scar.

For itching, bleeding or protruding piles, nothing can equal it, while thousands of cases are recorded where eczema, tetter and salt rheum were cured in the shortest possible time. San Cura Ointment is 25 and 50 cents a jar.

Everybody should use San Cura Soap. It's antiseptic, destroys all germ life, keeps the skin clear, soft and velvety; 25 cents. Thompson Medical Co., Titusville, Pa.—Advertisement.

You will win, but do not be impatient. Foolish obstinacy only makes trouble. Consider well what you write or say. You are about to receive some favor or advancement and pleasant associations will be made possible for you.

KIDNEYS SELDOM FREE FROM POISON

Clean Them Out and Backache, Sideache and Bladder Troubles Go.

It's mighty close to the truth to say that there are ten thousand apparently healthy people in America to-day, who will have Bright's disease, dropsy or some form of kidney disease within two months.

If you have backache, or the slightest suggestion of backache, don't take chances. Get a 50 cent bottle of Thompson's Barosma to-day and give your kidneys a thorough cleaning. They probably need it. If they don't Thompson's Barosma is a good tonic anyway and will do you good.

Thompson's Barosma is guaranteed by Graham & Company, Connellsville, and S. A. Lowe & Company, Scottdale, to cure kidney or bladder disease, no matter how distressing, or money back. Put up in liquid form, is quickly assimilated and goes directly to the seat of trouble. The very first dose will make your sick kidneys feel better, but bear this in mind when constipation is present. Thompson's *Dandelion and Mandrake Pills* should also be used. 25c.—Advertisement.

A Dream That Will Come True.

Mrs. S———, who has lived in a rented house ever since her marriage, told her father that she dreamed she owned her own home. Her dad said, "Why not turn the dream into a reality? I'll give you a lot, and I see by the papers that The Fayette Building & Loan Association was organized for the express purpose of helping people to save money to build homes." An interview with Fayette officials did the rest and Mrs. S——— will soon have a home of her own. If you want to know more about the simple and helpful plan of the Fayette, see Geo. W. Your Brain Is a Battery

Its Thoughts are the sparks that set Success in motion.

The simplest form of battery requires three factors to make the electric spark—(zinc, copper and an acid.)

The human brain also requires three vital elements to put forth **thought—water, albumen and Phosphate of Potash.**

In the Brain as in the Battery, let a single element become weakened from yesterday's use and lessened activity follows. Therefore, in order to keep a good working brain or add to its power, one absolutely must use food which contains albumen and Phosphate of Potash.

Why not do a bit of thinking now?

Water and albumen exist plentifully in every-day food, but Phosphate of Potash is often lacking.

That missing element exists freely in the outer coating of wheat and barley, but the miller of white bread flour throws it out because it makes his flour brown instead of white.

Grape-Nuts FOOD

Made of choice wheat and malted barley, retains the rich brain-building Phosphate of Potash required by Nature for supporting bright brains and active minds.
brains and active minds.

Pure! Wholesome! Appetizing! This food is partly pre-digested and quickly absorbed. A morning dish with cream proides force for accomplishment that many a man has come to know and appreciate.

Common Sense goes a long way toward making Success.
To eat right often means to be right,

FOREIGN SCHOOL CHILDREN.

One of the noticeable uplifting influences of our public schools is the education of the children of the foreign element. The fathers are for the most part unnaturalized citizens and never expect to be otherwise, but if they live here long enough their children, if they go to school invariably become citizens and usually excellent ones, too. Herein lies the compensation the country has for the outlay necessary to their education.

Complaint is made in some sections that some teachers discriminate against the children of foreigners and punish them with unnecessary severity while coddling and shielding American-born children. Some such cases may exist, and if so the School Boards should examine into them and punish the teachers, but it must be remembered that this is a common complaint as old as the public school system. It was heard long before the foreign children appeared upon the scene. The latter are copyists not copyrighters.

Fathers of foreign children should prefer their complaints to the School Board and not bring them to the squire's office. One of the recent complaints was taken to the justice's court and there dismissed. The administrators of our public school system are playing no favorites among the children, nor do we imagine very many of the teachers are prejudiced against the foreign pupils as a class.

WILSON'S CRUDE TARIFF IDEAS.

The following summary of the Tariff question is the product of Professor Wilson's researches:

The farmer does not derive any benefits from the tariff when he goes to market to sell his products, but on everything the farmer buys there is an artificially high price, due to the tariff.

The farmer derives some material benefits under the Tariff laws when he goes to sell his products at the store. We have noted that when the Tariff is low, farm products are low; when wages and earnings grow in volume, farm products rise in price. In other words, when work is plenty and wages liberal, the laboring man has plenty of money to buy what he wants, and his liberal buying further stimulates prices.

The Tariff has everything to do with the prices of farm products.

The New York Herald, Independent, which is making a canvass of some of the New England towns on the political question, finds a marked reaction in favor of President Taft and the regular Republican ticket, and a decided slump in the Bull Moose movement. The glamour of the cowboy statesman is wearing off and the citizens are beginning to see beneath the thin veneer of hypocrisy which covers the mighty and vain pretensions of Theodorus the Great.

Hungry Hi Johnson is nothing if not Progressive. He wants progress from California to Washington.

Professor Wilson's manager confesses to over $200,000 to date also to some reliable underwriters. Campaign funds are not quite so swollen as they were in 1904, but they seem to be just as easy.

The 1911 mining code is so satisfactory that no changes will be made at the coming session of the Legislature. The code is not perfect, but those interested in its operation realize that, like the Tariff, it is a good thing to leave undisturbed save for weighty reasons. Its revision once began resembles the measles. It has to run a feverish course.

Chairman Wasson will be permitted to conduct the campaign of the Bull Moose State ticket, but the candidates for Congress give polite notice that they will each and every one hoe his own row.

The spirit of Columbus rode out of Dunbar in a blaze of fiery glory.

The Baxter case bobs serenely up again.

Breakneck wells are reported to be polluted and the State authorities have ordered them to be cleaned out or closed down. Well water usually looks and tastes absolutely pure, yet it is often filled with the seeds of death.

The Ohio river dams are already taking their inevitable toll of death. Great industrial operations are usually cemented in blood.

The hard-luck brother who journeys by rail with neither ticket nor money travels more cheaply than safely.

The Monongahela authorities are getting good. They recently arrested a number of men for working on Sunday. These sentiments are responsible for a great deal of arrested development and lingering-on-the-threshold prosperity.

A Somerset coal merger is in the air. If it comes to earth it will be worth telling about.

The fortune teller who forged letters to make family trouble and incidentally a few dollars is an undesirable citizen whose banishment should be perpetual.

The Youngh National Bank management believes in expansion.

The Baltimore & Ohio is going into the magazine business again. The B. & O. has always had a literary hankering.

And Are You Particular About the Quality and the Style?

Those who have visited our Cloak and Suit Department this season have been impressed with the completeness of our stock the exclusiveness and individuality of our garments and the ultra stylishness of the line in general. In our opinion we have never before shown such practical styles at the price as we are showing this season. We want you to come in and look them over, try them on and note the fit, and examine the workmanship and materials used. We think it won't be hard for you to distinguish their superiority.

In this collection will be seen all the new novelty weaves and cuts that attract the popular fancy of young ladies and misses who are looking for something snappy and exclusive, as well as the more conservative styles in rough finished worsteds, serges, chinchil'as, diagonals, double faced materials, etc. Shown in plain tailored styles, large collars and revieres and deep cuffs of same or contrasting materials, braids, buttons and many other little touches, inelaborate, but lending them character and attractiveness. All the leading fall colorings are represented making this an ideal place to buy. It matters not what your fancy may be regarding a Cloak or Suit, we think we can give you satisfaction. And about the price—the quality and workmanship being considered, you will find our garments less expensive than in buying elsewhere.

To be Paved With Morgantown Block and Loucks to be Paved With Layton Block—Broadway Will be Repaired at Early Date.

Special to The Courier.

SCOTTDALE, Oct. 15.—Pietro Brothers of Morgantown, W. Va., were the successful bidders at the awarding of the contracts for grading, curbing and paving of Walnut and Loucks avenues let by Town Council Monday evening.

Toney Pietro made the bid, afterwards he said, as he exposed a muscular wrist, that the "brothers" are four and any of them can do paving work, and that he himself can do the laying of the pavement if necessary, adding that 14 years ago Coates & Company he personally laid the blocks on Broadway from Pittsburg street out. Later in the meeting he was given the repaving of Broadway between Pittsburg and Market street, approximately 400 square yards, at $1.24 per yard. The Pietros and L. H. Hileman & Company, of Ford City, the firm engaged in grading, were the only bidders.

The bids for Walnut avenue were as follows: by Hileman & Company, in following quantities and materials:—Grading 1,749 yards, 50 cents per cubic yard; curbing, with native sandstone, 2,275 lineal feet, 65 cents per foot; backing stone, 271 lineal feet, 60 cents per foot; drain tile per lineal foot 25 cents; tar filling, per square yard, 20 cents; sewer drops, $60 each; paving with vitrified block, 2,763 square yards, Layton Fire Clay Company of Pittsburg, $1.60 per yard, Bessemer Limestone Company, of Youngstown, O., $1.74 per yard, and Morgantown Brick Company, Morgantown, W. Va., $1.59 per yard.

The Pietros bid for Walnut avenue was grading, 54 cents; curbing, 55 cents; backing stone, 5 cents; tar filler, 20 cents, sewer drops, $50 each; Layton block, $1.55; Bessemer block, $1.71½; Morgantown block, $1.54, and drain tile 22 cents a foot.

The total on Hileman's bid for Walnut avenue using Layton block was $3,459.49 and Pietro brothers, $3,-253.34; Bessemer block, Hileman, $3,957.54, and Pietro, $3,840.92; Morgantown block, Hileman, $3,423.54 and Pietro brothers, $3,218.25.

On Loucks avenue the bids were as follows: Hileman, grading, 3,004 cubic yards, 50 cents per yard; curbing 2,076 yards, 68 cents; backing stone, 255 feet, 60 cents per foot, tar filler per square yard, 20 cents, drain tile per lineal foot, 25 cents; sewer drops 60 each; paving, 2,300 square yards, Layton block, $1.60 per yard, Bessemer block, $1.74 and Morgantown block, $1.59. Pietros brothers bid for the same was: Grading, 44 cents, curbing, 60 cents, backing stone, 44 cents; tar filler, 18 cents; sewer drops $14 each; Layton block, $1.41; Bessemer block, $1.66 and Morgantown block, $1.45. The totals for Hileman for Loucks avenue were: Layton block, $3,845.68, Bessemer block, $3,967.33 and Morgantown block, $3,810.50. Those for Pietros brothers were: Layton block, $3,207.33; Bessemer block, $3,-329 and Morgantown block, $3,214.18.

The contracts were awarded to Pietro brothers for Walnut avenue to use Morgantown block and for Loucks avenue to use Layton block, the latter to be on the ground before April first, 1913, and the Morgantown block so soon as they can be shipped. Borough Engineer T. B. Gibson had the tabulation of the bids.

The Councilmen present were H. C. Marts, H. J. Springer, A. E. Collins, J. E. Tinstman, William Butler, William Butler, W. T. Massey, W. W. Hines, C. M. Jarrett, M. L. Hagness and President W. L. Shaffer.

All property owners along Walnut avenue are advised by Council to look after their service from the water, gas, electric and telephone companies so that the contractors will not be held up by any changes to be made when they begin the work.

RECEPTION TONIGHT.

There will be an informal reception for the members of the First Methodist Episcopal Church and all the friends of that church at the church this evening at 7.30 o'clock to greet the Rev. and Mrs. H. S. Piper, on the occasion of the Rev. Mr. Piper being returned to this congregation. There will be some informal speeches, some special music and some refreshments and all friends are invited to be present.

KEEPING HIM BUSY.

President of Council W. L. Shaffer is being kept busy. On Saturday he went with Mrs. Shaffer and their daughter, Margaret, down near Dawson to visit his parents, Mr. and Mrs. L. E. Shaffer, former residents of Scottdale, who are now on a farm. That day Mr. Shaffer tried the joys of cutting off corn, which is no child's job. On Sunday, as President of Council he had to fill Burgess R. F. Cills' place, as that gentleman is ill, and dispensed the law to a few drunkards cooped up from Saturday night. On Monday he returned to the farm and hewed down a lot more of the waving corn. That night he got back to town and took up the gavel and presided over Council. Today he grabbed his suit case and hurried away to Shamokin, where he is a delegate to the Grand Encampment of the Odd Fellows.

A HAPPY, LAUGHING CHILD IN A FEW HOURS

If Cross, Feverish, Tongue Coated or Sick, Give "Syrup of Figs."

Mother! Don't scold your cross, peevish child! Look at the tongue! See if it is white, yellow and coated! If your child is listless, drooping, isn't sleeping well, is restless, doesn't eat heartily or is cross, irritable, out of sorts with everybody, stomach sour, feverish, breath bad; has stomachache, diarrhoea, sore throat, or is full of cold, it means the little one's stomach, liver and 30 feet of bowels are filled with poisonous and foul, constipated waste matter and need a gentle, thorough cleansing at once.

Give a teaspoonful of Syrup of Figs, and in a few hours all the clogged up waste, undigested food and sour bile will gently move on and out of its little waste clogged bowels without nausea, griping or weakness, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drugging your children, being composed entirely of luscious figs, senna and aromatics it cannot be harmful, besides they dearly love its delicious taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse anything else offered.—Advertisement.

NEW DISCOVERY QUICKLY CURES KIDNEY AND BLADDER TROUBLES

Chronic Sufferers Find Relief After Few Doses are Taken.

If you are bothered with backache—or rheumatism, have disagreeable, annoying bladder or urinary disorders to contend with—or suffer with any other of the many miseries that come from weak kidneys, here is a guaranteed remedy you can depend upon, no matter what else may have failed to cure.

It is a positive fact that the new discovery, Croxone, permanently overcomes such diseases. It is the most wonderful remedy ever made for ridding the system of uric acid. Pills, tablets, and other remedies at the best merely stimulate the kidneys, giving temporary relief. Croxone removes the cause and cures the troubles.

It soaks right in and cleans out the stopped up kidneys and makes them filter and sift out all the poisonous waste matter from the blood. It neutralizes and dissolves the uric acid that lodges in the joints and muscles, causing rheumatism; soothes and heals the delicate linings of the bladder, and puts the kidneys and urinary organs in a clean, strong, healthy condition.

More than a few doses of Croxone are seldom required to relieve even the obstinate long standing cases, while it cures the most severe forms of kidney, bladder trouble, and rheumatism in a surprisingly short time.

You will find Croxone entirely different from all other remedies. There is nothing else on earth like it. It is so prepared that it is practically impossible to take it into the human system without results. An original package cost but a trifle at any first class drug store. All druggists are authorized to personally return the purchase price if Croxone fails to give the desired results the very first time you use it.—Advertisement.

A Harvest of Merchandise That Comes But Once in a Decade

Sale Lasts 10 Days

Starts at S. M. LEVY'S

138 West Main Street **Connellsville, Pa.**

Sale Lasts 10 Days

SALE IS NOW GOING ON

Hundreds of manufacturers unable to fill orders on time this fall were forced to accept the goods returned to them by some of the largest stores in the country. The season was on, salesmen were off the road, and nearly all stores were supplied with their fall merchandise. Consequently these returned goods along with canceled orders were thrown on the open market.

Purchasing agents in the large cities, always on the lookout for such things, eagerly grasped this opportunity, letters and telegrams were scattered broadcast throughout the country, asking for bids on the whole or a part of any of these stocks. We made our bid on $21,600 worth of merchandise, on condition that all goods were of this season's manufacture. Our bid was accepted, the goods arrived, were placed on our shelves, and this great Factory Purchase together with our regular lines of new fall goods will be placed on sale SATURDAY, OCTOBER 12, at 9 A. M., for ten days' selling. At far less than the cost of their production.

THE ROOT OF EVIL

BY

THOMAS DIXON

Copyright, 1911, by Thomas Dixon

"No trouble at all," was the easy answer. "It only requires a little money and a little patience and a little care in selecting the right men for the right job. Any man in the business world who thinks he can do as he pleases in this town will wake some morning with a decided jolt. The war for financial supremacy has developed a secret service which approaches perfection. Not only do I systematically watch my employees until I know every crook and turn of their lives, but I watch with even greater care the heads of every rival firm in every department of the industrial world where my interests touch theirs.

"I not only watch the heads of firms; I watch their trusted assistants and confidential men. In that big safe a thousand secrets lie locked whose revelation would furnish matter enough to run the yellow journals for the next five years. Modern business is war, the fiercest and most cruel the world has ever known. It is of greater importance to a modern captain of industry to know the plans of his enemy than it ever was to the commanding general of an opposing army."

"I see," Stuart responded thoughtfully.

"There are men down there in the street now," Bivens went on dreamily, "who are wearing silk hats today for whom the prison tailor is cutting a suit. I have their records in that silent little steel clad room. It's a pitiful thing, but it's life.

"The scarcest thing in New York today, Jim, is the man who can't be bought and sold. The thing that's beyond price in the business world is character — combined with brains. That's why I made you the offer I did once upon a time to come in with me. There are positions today in New York with a salary of half a million a year waiting for men who can fill them. If I could find one man of the highest order of creative and executive ability who would stand by me in my enterprises I could be the richest man in the world in ten years."

Stuart lifted his eyes from the record he was casually scanning and smiled into Bivens' dark, serious face.

The look silenced the speaker. The little man knew instinctively that Stuart was at that moment weighing his own life and character by the merciless standard he had set up for others. Judged by conventional laws, he had nothing to fear. He was a faithful member of his church. He gave liberally to its work and gave generously to a hundred worthy charities. He loved his wife with old fashioned loyalty and tenderness and grieved that she was childless. He stood by his friends and fought his enemies, asking no quarter and giving none.

Yet in his heart of hearts he knew that, however loftily he might discourse at present about "character," "honor," "integrity" and "fair dealing," he had stolen the formula from his big hearted employer, Woodman, with which he had laid the foundation of his fortune. It was the first half million that came hard. It was this first half million that bore the stain of shame.

His other questionable acts on which the fate of millions had often hung he had no difficulty in justifying. Business was war.

Bivens waited for Stuart to speak. The moment was one big with fate. Stuart was about to reach a decision that would make history. No one knew so well its importance as the keen intellect that gleamed behind the little black eyes watching with tireless patience. Below he could hear the roar of the city's life. Men bought and sold with no fear of tomorrow. Yet a single word from the lips of the tall, clean shaved young officer of the law and a storm would break which might tear from the foundations institutions on whose solidity modern civilization seemed to rest.

"Well, Jim," Bivens said at length, "you are going to act?"

Stuart rose abruptly, his reply sharp and clear:

"Yes, I'm going to act."

"At once?"

"It's my duty."

Bivens grasped his hand.

"I congratulate you, Jim. You are going to do a big thing, one of the biggest things in our history. You are going to teach the mighty that the law is mightier. It ought to land you at the very top in politics or any other old place you'd like to climb."

"That's something which doesn't interest me yet, Cal. The thing that stuns me is that I've got to do so painful a thing. But my business is the enforcement of justice. There's one thing I still can't understand—why you of all men on earth should have put this information in my hands. The honor of the achievement, if good shall come to the country, is really yours, not mine."

"And you can't conceive of my acting for the country's good?"

Bivens' black eyes twinkled.

"Not by the wildest leap of my imagination."

The twinkle broadened into a smile as the lawyer continued:

"Your code is simple, Cal. There's no provision in it for disinterested effort for others. This time you've got me up a tree. You have rendered the people a great service. You have placed me under personal obligations. But how you are going to get anything out of it is beyond me."

"Oh, I'll have my reward, my boy," Bivens answered jovially, as his dainty fingers again stroked his beard, pressing his mustache back from the thin lips, "and I assure you it will not be purely spiritual."

The door had scarcely closed on Stuart when Bivens pressed the button which called his confidential secretary.

In a moment the man stood at his elbow with the tense erect bearing of an orderly on the field of battle. The quick nervous touch of the master's hand on that button had told to his sensitive ears the story of a coming life and death struggle. His words came with sharp, nervous energy:

"Yes, sir?"

"A meeting of the Allied Bankers here in thirty minutes. No telephone messages. A personal summons to each. They enter one at a time that no one on the outside sees them come."

How to Be Beautiful.

("Parisienne" in Woman's Realm.)

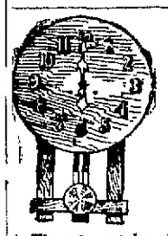

"A perspiring, shiny face is not beautiful. Powder only smears and makes it worse. Apply in the morning a lotion made by dissolving a package of mayolene in a half-pint of witch hazel. This 'holds' all day, prevents tan and sunburn, removes blemishes and makes the skin smooth, fair and satiny.

"When condition of health does not favor washing the head, use a dry shampoo made by mixing four ounces of orris root with an original package of therox. Therox is good for the hair and makes it light, wavy and lustrous. Just sprinkle on the head and brush out. Remember water causes brittle, streaked and falling hair.

"Thin and straggly eyebrows will grow thick, even and darker-colored if pyroxin is applied daily with the finger tips. Eyelashes, too, will become lovely and long if pyroxin is gently massaged into the roots.

"In fifty years millions of jars of Mother's Salve have been used for the treatment of colds in the head or chest, catarrh, sore throat, bronchitis, tonsilitis and croup. It is an old-fashioned remedy good druggists like to sell.

"No woman need suffer humiliation from superfluous hairs on face or forearms. Just cover the hairs with a paste made of plain delatone and water, leave on for a few minutes, remove wash the surface and the hairs will be gone. This treatment is sure, safe and speedy."—Advertisement.

DANDRUFF AND FALLING HAIR CAN BE STOPPED WITH HERPICIDE

Every woman who is obliged to wear false hair or man, a toupee, feels that it is a misfortune. What makes the burden so doubly hard to bear is the knowledge that the loss of natural hair could, in most instances, have been easily avoided.

The arch enemy of good hair is the dandruff germ. This is now a well established scientific fact. There is one remedy on the market which, used regularly, will kill the germ and keep out every trace of dandruff.

This remedy is Newbro's Herpicide, long known as the Oriental Dandruff Germ Destroyer. By keeping the scalp clean, Herpicide not only prevents the hair from falling out but allows it to grow as nature intended. Begun in time and its use persisted in, this valuable remedy insures a nice healthy head of hair.

Herpicide imparts a life and luster to dull, dead, brittle hair, making it light, fluffy and beautiful.

Don't wait. Begin now to save your hair.

Newbro's Herpicide in 50c and $1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

Applications may be procured at the better barber shops and hair dressers.

A nice sample and booklet on the care of the hair will be sent to anyone upon receipt of 10c in postage or silver. Address The Herpicide Co., Dept. R., Detroit, Mich.

MARQUARD HOLDS RED SOX DOWN AND WINS THE GAME, 5 TO 2

Giants' Crack Pitcher Lands Victory and Gives Chance for Pennant.

TAFT GETS WIRELESS NEWS

President of United States on Board Yacht Mayflower Hears Reports of Contest in Manhattan; Remaining Series Played in Boston.

NEW YORK, Oct. 15.—Landing on Buck O'Brien's moist fingers in the first inning of yesterday's game with the Red Sox, the New York Giants hammered out five runs and came through a 5-2 winner. The Sox's best efforts resulted in only two runs. Marquard, save for a slight lapse, being master of the situation at all stages.

The Giants were fighting in the last trench and right nobly did they conduct their battle. After the first inning, they were checked, Ray Collins, who succeeded the spitball star, blanking them during the remainder of the game. But McGraw's men, with a five-run lead, were content to remain on the defensive.

The world's series now stands: Boston three games won; New York, two games won, and one contest a tie.

On the green turf just back of first base, while the 30,000 spectators were leaving the grounds, Managers Stahl and McGraw tossed a coin to determine in which city the deciding game should be played in event New York won today's game in Boston. Stahl won the toss and all the remaining games will be played on Boston's field.

President Taft, on the yacht Mayflower, kept in touch with the game by wireless while reviewing the battleship fleet in the Hudson River. The inning scores were also wig-wagged from ship to ship all along the line, so that every man Jack of those aboard could know the progress of the game.

All the action of the day's game came early and when the smoke of battle floated away at the end of the second inning, the score stood 5 to 2 in favor of the Giants, and thereafter neither side could add a tally in the face of the superb twirling of the two left-handers, Rube Marquard and Ray Collins. The Boston southpaw had been called to the firing line after the Giants had touched off an explosion of hits off Buck O'Brien's moist ball. The fusillade of hits came with such suddenness that for the first time in the series the Boston infield were unable to meet the attack.

Dear Madam:---

Now, that you've made the rounds of the stores in town in your search for a

Suit or Coat

in a style you had pictured in your mind, (vague, elusive, but still different from what you saw)
—and failed to find it
—and had set your heart upon it
—and have no hope that any store will ever get the thing you want
—and are dreadfully vexed that no store ever does have what you just must have
—and what good are such stores any way, etc., etc., etc.

We like to get "hauled up short" occasionally by a shopper of that caliber. It puts us on our mettle. It makes us "get up and dust."

Then after some busy-ness on our part searing-up the "thing she had her heart set-on" it's good to see her satisfaction.
